1. The following is an examiner's statement of reasons for allowance:

Applicant argued and stated in Remarks/Arguments, dated 12/27/2005, that the advantage of having the crop lift auger and movably mounted on the first end, and capable of being fixedly mounted in different positions on the second end, where the first end is the forward end as related to a forward direction of travel allows for adjustment of the crop lift auger from one position to another without the need to adjust the drive means, is stated in the Specification, paragraph 0017, as:

The altitude of the rear end of the crop lifter auger 44 can be freely adjusted for given harvesting conditions by loosening a holding device (e.g. a cotter pin, nut eccentric lever, or screw), adjusting the altitude of the mount 64, and then re-fixing the holding device to the frame 12. When this is done, it is unnecessary to also adjust the drive means, because the arrangement of the gear drive 50 provides the necessary adjustment automatically.

The Examiner agrees that neither Leposa nor DE 261748 (showing a front drive arrangement at the first end, but not the adjustment of the second end) show, as the Applicant put it "this advantage." Therefore based on the above interpretation and consideration that independent claims 1 and 12 include along with the rest of the recitation in the claims, claims 1 & 3-15 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Árpád Fábián Kovács whose telephone number is 571 272 6990. The examiner can normally be reached on Mo-Th.
